MEMORANDUM FOR: Chief, Special Intelligence Staff, OCI

SUBJECT : War Planning

In looking through my files on war planning, I have come across the attached charts of ODM Plans for the Wartime Structure of the Executive Branch of the Government. It seems to me that these plans had been prepared in something of a vacuum as far as the intelligence components of the Government are concerned. The War Communications Administration in particular seems to raise some rather interesting problems. If you know of any background on this matter, I would appreciate your passing it along to me, and I will keep you posted on anything more that I can learn.

W. A. TIDWELL
Assistant to DD/I (Planning)
